

Walki® Mail

Mailing materials

walki

Walki and mailing

Walki is a well known supplier of strong mailing materials.

The Mail products are strong and light laminates or pe-coated papers offering excellent processability on all conventional pocket and gusset lines.

Walki@Seal Mail is a range of PE coated papers with excellent sealing properties for bubble envelopes.

Walki@Net Mail is a net reinforced paper laminate for strong pockets and gussets. It gives good barrier against moisture. Brown and white paper combinations are available.

Standard products available:

Walki@Seal Mail B80

Walki@Net Mail 125

Within **Technical Papers** there is a wide range of products for technical applications. Properties and functions are very specific for each end use. Paper is used as a main base material to meet all different requirements. Also other web based materials can be used.

Walki in brief

Walki produces wrappings for the paper and metal industries, food and consumer packaging materials, decorative and functional laminates, barrier liners for solid and corrugated packaging, facings for the insulation and construction industries and solutions for technical applications.

Walki's production units in Finland, Germany, the U.K., China and Sweden have a combined annual production capacity of 300,000 tonnes, an annual net sales total of 300 million euros and a workforce of 900 employees.
