

**CONSTRUCTION
FACINGS**

**CONSTRUCTION
MEMBRANES**

**Solutions
for thermal
and technical
insulation**

- **Wool and radiant facings**
 - Rigid PU foam facings
 - Plasterboard facings for wet condition outside
 - Plasterboard facings for wet condition inside
 - Industrial laminates -> flooring laminates

Solutions for thermal and technical insulation

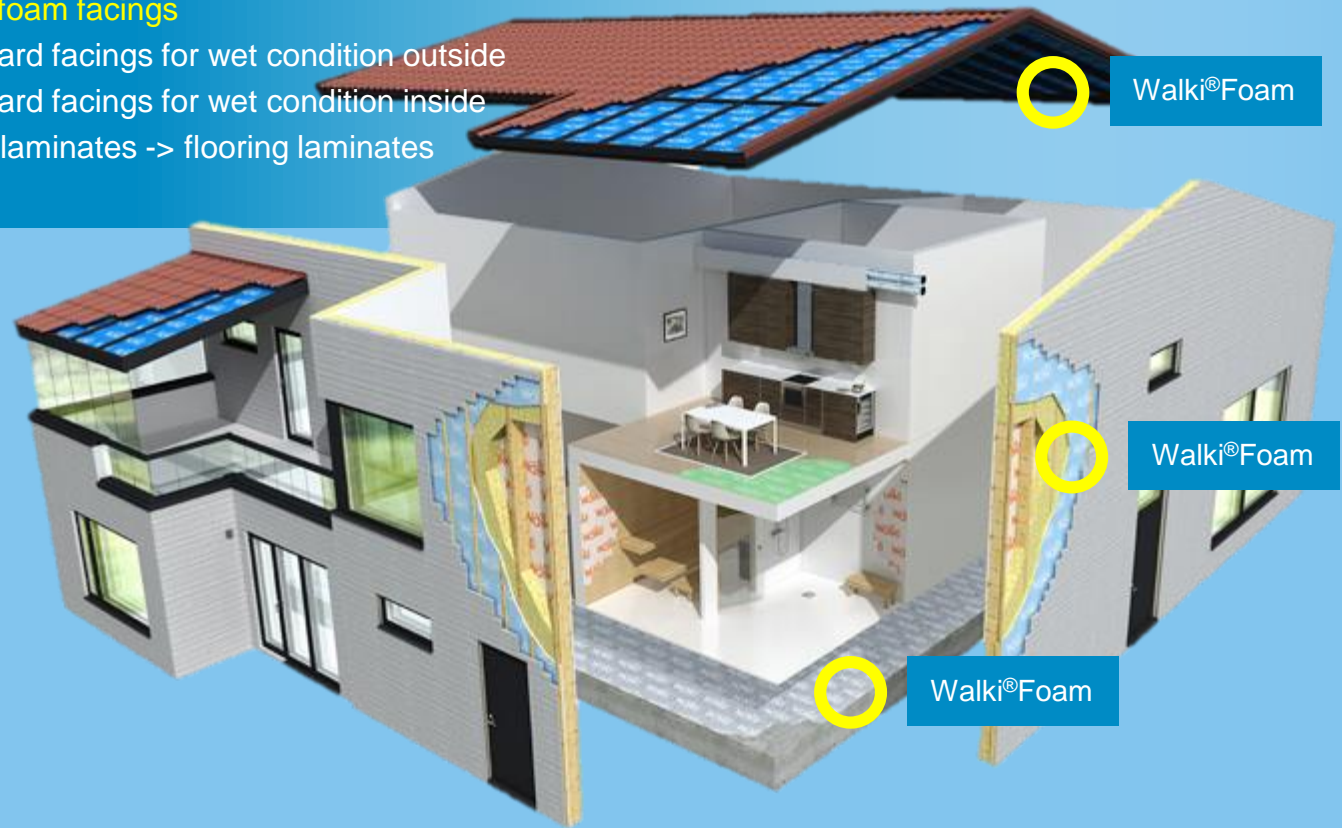

Wool and radiant facings

- Rigid PU foam facings

Plasterboard facings for wet condition outside

Plasterboard facings for wet condition inside

Industrial laminates -> flooring laminates

Walki®Foam

Walki®Foam

Walki®Foam

**Solutions
for thermal
and technical
insulation**

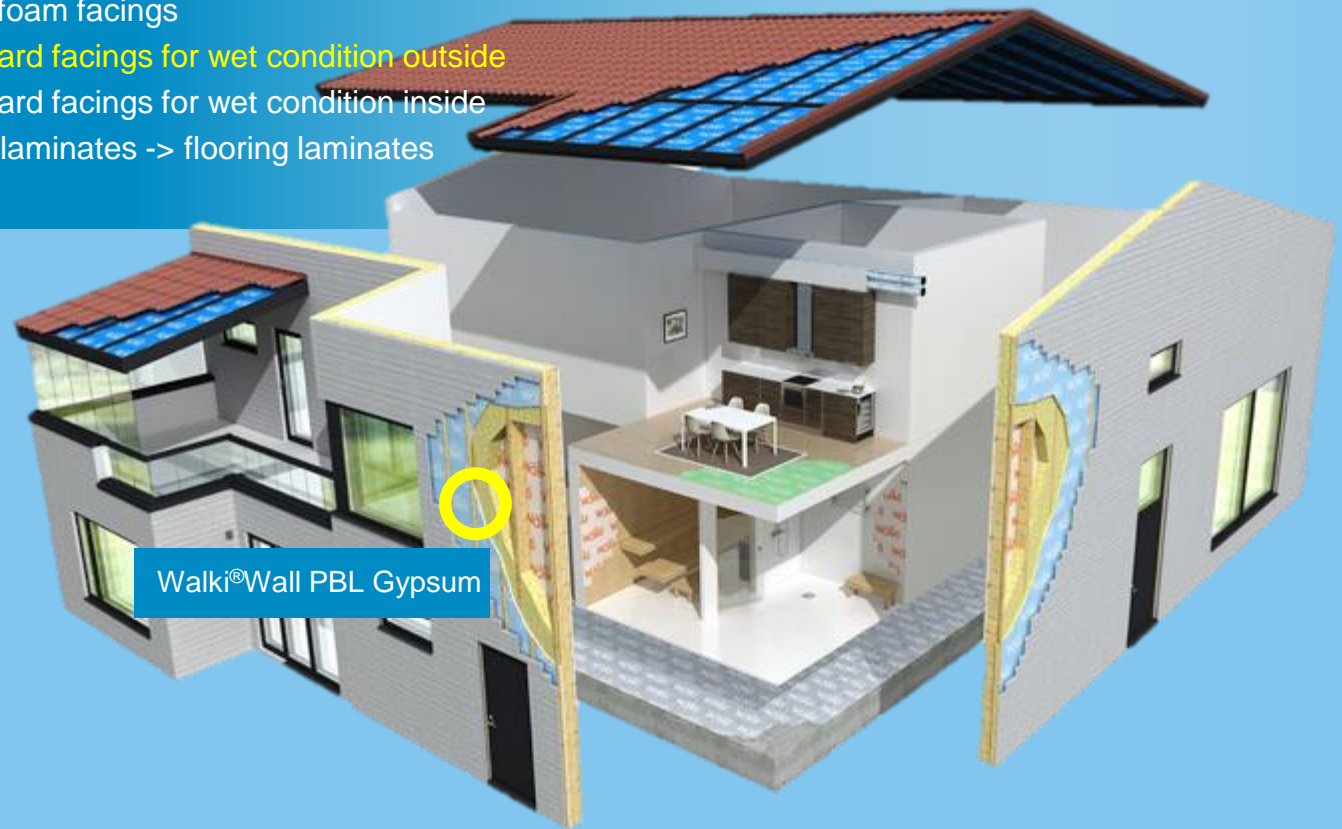

Wool and radiant facings

Rigid PU foam facings

- **Plasterboard facings for wet condition outside**

Plasterboard facings for wet condition inside

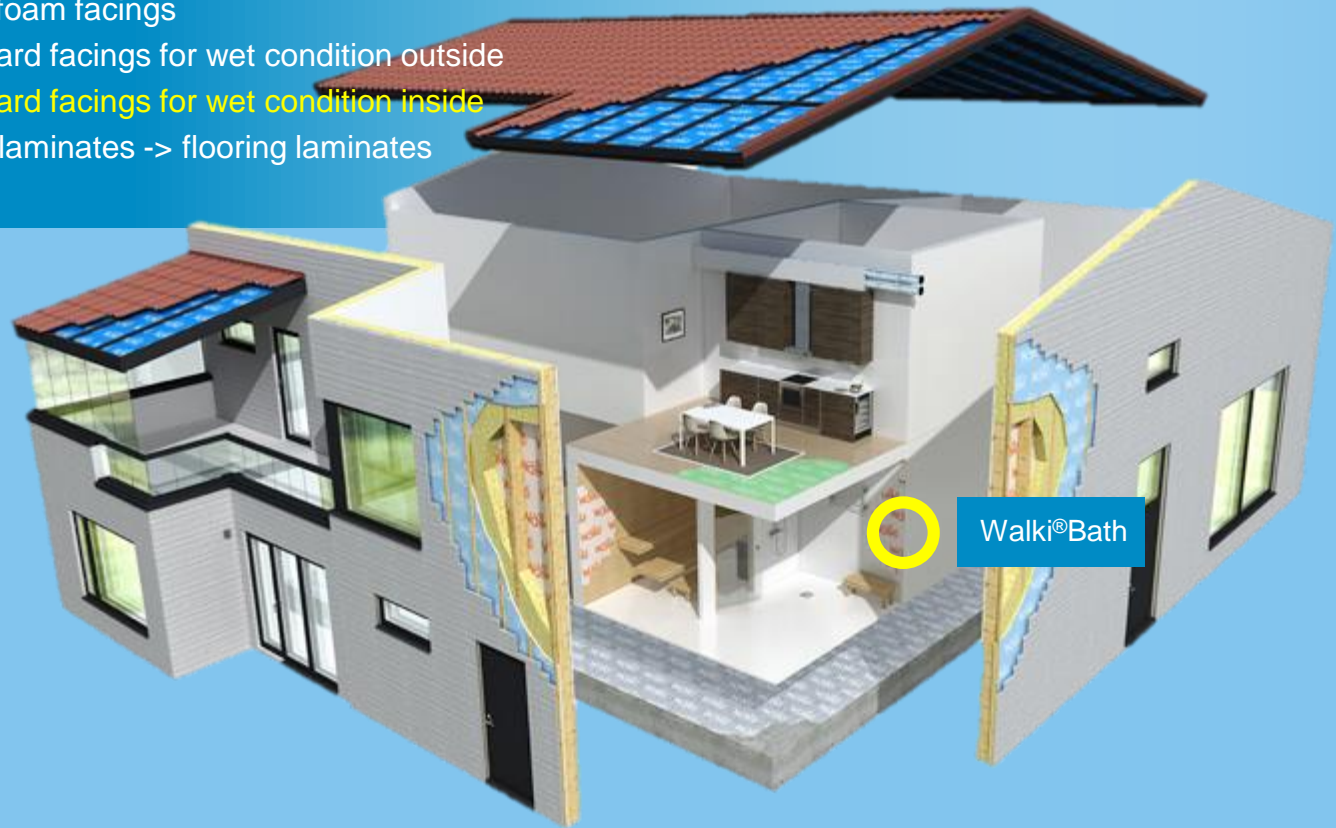

Industrial laminates -> flooring laminates

Walki®Wall PBL Gypsum

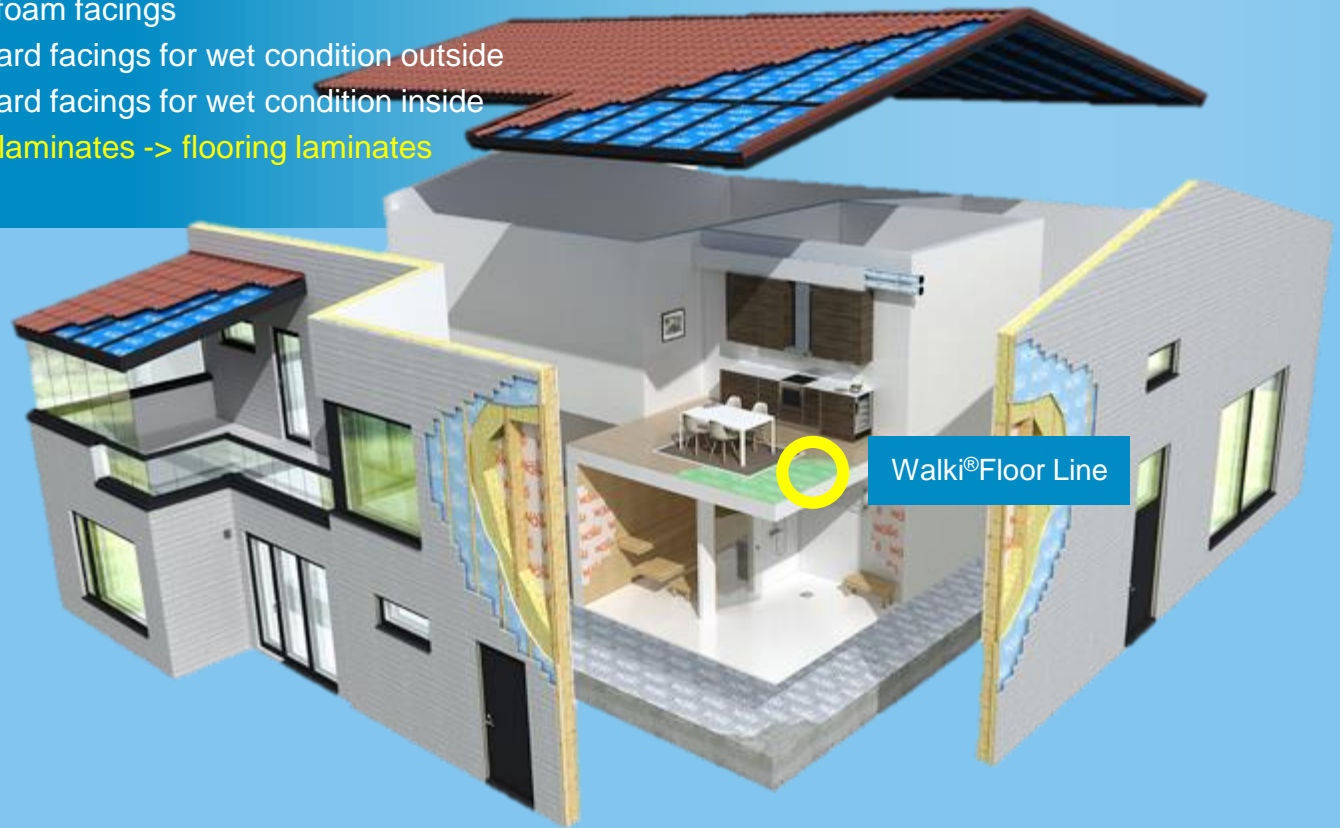

**Solutions

Durable and energy saving solutions for protecting people and buildings

- Roofing underlays (Walki®Roof)
- Housewrap (Walki®Breath)
- Vapor control layer (Walki®Wall Tight)
- Ground protection barrier (Walki®Block)

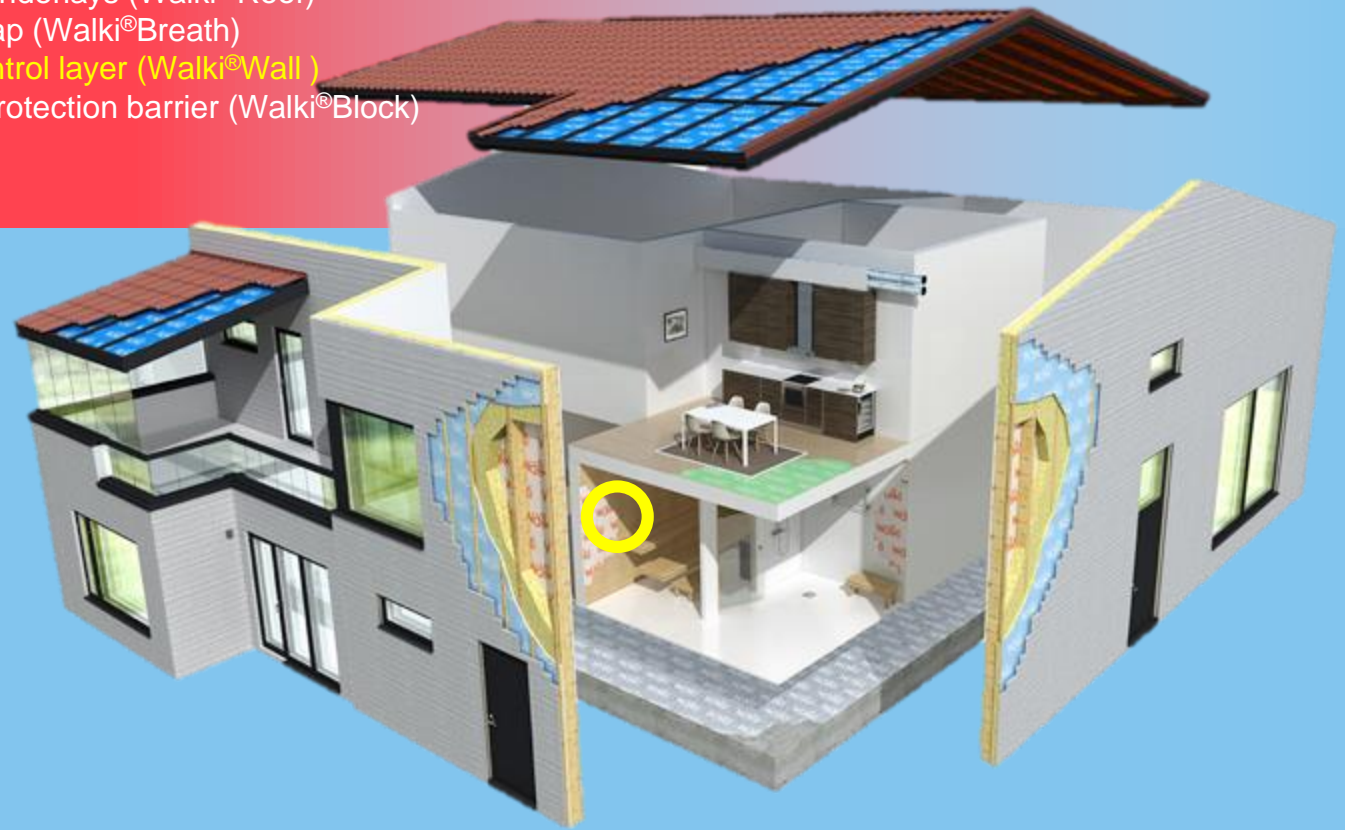

Durable and energy saving solutions for protecting people and buildings

- Roofing underlays (Walki®Roof)
- Housewrap (Walki®Breath)
- Vapor control layer (Walki®Wall Tight)
- Ground protection barrier (Walki®Block)

Durable and energy saving solutions for protecting people and buildings

- Roofing underlays (Walki®Roof)
- Housewrap (Walki®Breath)
- Vapor control layer (Walki®Wall)
- Ground protection barrier (Walki®Block)

Outside solutions for protecting people and buildings

- Roofing underlays (Walki®Roof)
- Housewrap (Walki®Breath)
- Vapor control layer (Walki®Wall Tight)
- Ground protection barrier (Walki®Block)
